Company Profile

WinConn Technology Co., Ltd. is a professional manufacturing company engaged in the design, production, sales and service of various connectors and cables. Our years of experience, and value for products innovation, quality and cost efficiency have earned us a solid reputation in the industry.

- **Products innovation (R&D):** We have a dedicated and professional R&D team that drive forward innovations in our products, meeting market requirements and providing comprehensive solutions to satisfy your needs. Whether domestic or international market, and standard or custom design (OEM/ODM), our technical capabilities is to your advantage.
- **High-quality (Production):** Our production facility is fitted with top-notch manufacturing and testing equipment to ensure excellent product quality and efficient production. It is our ultimate goal to provide you with reliable and high-quality products.
- **Low cost & Quality Service (Sales & Service):** At Winconn, we believe that inexpensive does not mean poor quality. Our R&D and production system are continuously improving to offer you with competitive prices, and our after-sales service is here to support your needs and build long-term relationships.

Company Profile

As a testament of our dedication to quality, our company has been certified compliant to ISO 9001 (Quality Management System). And, as part of our efforts in support of environmentally conscious business practices, our connectors are free of halogen and cables RoHS (Restriction of Hazardous Substances) compliant.

Allow us to create win-win business opportunities with you, and grow our business together!
